(v) Results/ Outcome of the MoU

Both institutions have successfully implemented staff exchange programs under the Memorandum of Understanding (MoU) that facilitate the exchange of knowledge and expertise between the two colleges. The programs include two lecturers from each college who gave lectures and participated in specialized academic discussions with the members of the partner college. During all these sessions, the participating students were highly motivated and actively engaged in the academic discussion. Doing this exchange not only enriched the students' academic experience, but also opened them up to different perspectives and approaches in their field of study. Faculty, on the other hand, found this collaboration a way to improve their intellectual sensitivity and academic competence. Overall, these academic exchanges have significantly contributed to a healthy bond between the students and faculty of both colleges. Such initiatives are likely to play a crucial role in creating a supportive and collaborative environment, facilitating a wider exchange of ideas and fostering mutual understanding between the two institutions.

(v) Results/ Outcome of the MoU

Both institutions have successfully implemented staff exchange programs under the Memorandum of Understanding (MoU) that facilitate the exchange of knowledge and expertise between the two colleges. The programs include two lecturers from each college who gave lectures and participated in specialized academic discussions with the members of the partner college. During all these sessions, the participating students were highly motivated and actively engaged in the academic discussion. Doing this exchange not only enriched the students' academic experience, but also opened them up to different perspectives and approaches in their field of study. Faculty, on the other hand, found this collaboration a way to improve their intellectual sensitivity and academic competence. Overall, these academic exchanges have significantly contributed to a healthy bond between the students and faculty of both colleges. Such initiatives are likely to play a crucial role in creating a supportive and collaborative environment, facilitating a wider exchange of ideas and fostering mutual understanding between the two institutions.

(v) Results/ Outcome of the MoU

Both institutions have successfully implemented staff exchange programs under the Memorandum of Understanding (MoU) that facilitate the exchange of knowledge and expertise between the two colleges. The programs include two lecturers from each college who gave lectures and participated in specialized academic discussions with the members of the partner college. During all these sessions, the participating students were highly motivated and actively engaged in the academic discussion. Doing this exchange not only enriched the students' academic experience, but also opened them up to different perspectives and approaches in their field of study. Faculty, on the other hand, found this collaboration a way to improve their intellectual sensitivity and academic competence. Overall, these academic exchanges have significantly contributed to a healthy bond between the students and faculty of both colleges. Such initiatives are likely to play a crucial role in creating a supportive and collaborative environment, facilitating a wider exchange of ideas and fostering mutual understanding between the two institutions.
